Office Telephone: (218) 299-5006

Fax: (218) 299-5195

Honorable Chairman and Commissioners Clay County Board of Commissioners 807 North 11th Street Moorhead, MN 56560

Gentlemen,

The Annual Financial Report of Clay County is submitted for the fiscal year ended December 31, 2012. This report was prepared by the County Auditor's Office. Responsibility for both the accuracy of the presented data and completeness and fairness of the presentation, including all disclosures, rests with the County. To the best of our knowledge and belief, the enclosed data are accurate in all material respects and are reported in a manner that presents fairly the financial position of the County and results of operation of the County, as measured by the financial activity of its various funds, and all disclosures necessary to enable maximum understanding of the County's financial affairs.

The Annual Financial Report is presented in two sections: Introductory and Financial. The Introductory Section includes this transmittal letter and the County's organizational chart. The Financial Section includes the Management's Discussion and Analysis, the Basic Financial Statements, the Required Supplementary Information, and the Supplementary Information.

This report includes all of the funds and entities, which are considered to be under the direction and control of the County Board. The County provides a full range of services including public safety and law enforcement; courts and probation services; tax assessment and collection; vital statistics and public records; human services; highways, planning, inspection, and environmental health; and recreation and cultural services.

Copies of this report will be sent to elected officials, County management, bond rating agencies, and governmental agencies, which have expressed an interest in Clay County's financial affairs.

#### NOTES TO THE FINANCIAL STATEMENTS

The notes to the financial statements, presented with the basic financial statements, are an integral part of this Annual Financial Report and should be read for a full understanding of the statements and information presented herein.

#### INDEPENDENT AUDIT

Minnesota State Law requires an audit to be made of the books of accounts, financial records, and transactions of the County by the State Auditor. This requirement has been complied with, and the Auditor's opinion is included in this report.

The State Auditor will issue a management and compliance letter covering the review, made as part of their examination of Clay County's system of internal control and compliance with applicable legal provisions. The management and compliance letter will not modify or affect, in any way, this report on the financial statements.

### **ACKNOWLEDGMENTS**

The preparation of this report could not be accomplished without the professional and dedicated services of the entire staff of the Auditor's Office.

Sincerely,

Lori J. Johnson

Clay County Auditor-Treasurer

#### INDEPENDENT AUDITOR'S REPORT

Board of County Commissioners Clay County

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Clay County as of and for the year ended December 31, 2012, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor

considers internal control relevant to the County's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Clay County as of December 31, 2012, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Other Matters**

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and Required Supplementary Information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Clay County's basic financial statements. The introductory section and supplementary information as listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 9, 2013, on our consideration of Clay County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Clay County's internal control over financial reporting and compliance.

### MANAGEMENT'S DISCUSSION AND ANALYSIS DECEMBER 31, 2012 (Unaudited)

The financial management of Clay County offers readers of Clay County's financial statements this narrative overview and analysis of the financial activities of Clay County for the fiscal year ended December 31, 2012. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal and the notes to the financial statements.

#### FINANCIAL HIGHLIGHTS

- The assets of Clay County exceeded its liabilities at the close of the most recent fiscal year (December 31, 2012) by \$116,367,982 (net position). Of this amount, \$21,743,537 (unrestricted net position) may be used to meet the government's ongoing obligations to citizens and creditors.
- Governmental activities' total net position is \$99,595,863, of which Clay County has \$79,028,750 in net investment in capital assets; \$4,966,244 is restricted to specific purposes/uses by Clay County.
- Business-type activities have total net position of \$16,772,119. Net investment in capital assets represents \$10,626,974 of the total.
- The net cost of Clay County's governmental activities for the year ended December 31, 2012, was \$24,264,951. General property tax revenue and other general revenue sources totaled \$26,999,400.

#### OVERVIEW OF THE FINANCIAL STATEMENTS

This Management's Discussion and Analysis (MD&A) is intended to serve as an introduction to Clay County's basic financial statements. Clay County's basic financial statements consist of three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. This report contains other supplementary information, in addition to the basic financial statements.

#### **Government-Wide Financial Statements**

The government-wide financial statements are designed to provide readers with a broad overview of Clay County's finances in a manner similar to a private-sector business.

The Statement of Net Position presents information on all of Clay County's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of Clay County is improving or deteriorating.

The Statement of Activities presents information showing how Clay County's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods (such as uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of Clay County that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their cost through user fees and charges (business-type activities). The governmental activities of Clay County include general government, public safety, highways and streets, human services, culture and recreation, conservation of natural resources, and economic development. The business-type activities of Clay County include the Family Service Center, Juvenile Detention, Public Health, and Solid Waste.

The government-wide financial statements may be found in Exhibits 1 and 2 of this report.

#### **Fund Financial Statements**

A fund is a grouping of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. Clay County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of Clay County may be divided into three broad categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds Balance Sheet and the governmental funds Statement of Revenues, Expenditures, and Changes in Fund Balance provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

(Unaudited)

Within the governmental funds, Clay County maintains four fund types: general, special revenue, debt service, and capital projects. Information is presented separately in the governmental funds Balance Sheet and in the governmental funds Statement of Revenues, Expenditures, and Changes in Fund Balance for the General Fund, Road and Bridge Special Revenue Fund, Social Services Special Revenue Fund, and Ditch Debt Service Fund, all of which are considered to be major funds. Data from the other special revenue, debt service, and capital projects nonmajor governmental funds are combined into a single, aggregated presentation. Individual fund data for each of the nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

Clay County adopts an annual budget for three of its major governmental funds, the County Building nonmajor special revenue fund, Courthouse Expansion nonmajor debt service fund, Joint Highway Facility nonmajor debt service fund, and Law Enforcement Expansion nonmajor debt service fund. A budgetary comparison statement has been provided for these funds to demonstrate compliance with their budgets.

The basic governmental fund financial statements may be found in Exhibits 3 through 6 of this report.

**General Fund.** The General Fund is used to account for all financial resources not required to be accounted for in another fund.

**Special revenue funds.** Special revenue governmental funds account for the proceeds of specific revenue sources that are restricted to expenditures for specified purposes. The special revenue funds include:

- Road and Bridge,
- Social Services,
- County Building, and
- Gravel Removal Tax Reserve.

**Debt service funds**. The debt service funds account for the payment of principal, interest, and fiscal charges on long-term debt obligations of Clay County. The debt service funds include:

- Americana Estates.
- Courthouse Expansion,
- Ditch,
- Joint Highway Facility,
- Law Enforcement Expansion, and
- County Projects.

**Capital Projects Fund.** The Capital Projects Fund is used to account for financial resources to be used for improvement of capital facilities.

**Proprietary funds**. Clay County maintains two different types of proprietary funds: enterprise and internal service. The enterprise fund is used to report the same functions presented as business-type activities in the government-wide financial statements. Clay County uses its Family Service Center Enterprise Fund to account for the financing of the Family Service Center, which provides rental space to other departments and agencies. The Juvenile Center Enterprise Fund is used to account for the financial transactions of the fund, which provides housing for juveniles and rental space to departments and agencies. The Public Health Fund provides nursing service care to the elderly and other residents of the County, and the Solid Waste Management Fund is used to account for providing refuse disposal services to the public. The internal service fund is an accounting device used to accumulate and allocate costs internally among Clay County's various functions. Clay County uses its Equipment Replacement Internal Service Fund to account for the financing of equipment provided by one department to other departments of the County on a cost-reimbursement basis. Each year, a transfer is made based upon the amount reflected in the equipment replacement schedule.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for all of Clay County's enterprise funds since they are all considered to be major funds of the County. Conversely, the Equipment Replacement Internal Service Fund is reported separately on the proprietary fund financial statements.

The basic proprietary fund financial statements may be found in Exhibits 7 through 9 of this report.

**Fiduciary funds.** Fiduciary funds (trust and agency funds) are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support Clay County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statement may be found as Exhibit 10 of this report.

#### **Notes to the Financial Statements**

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements follow the exhibits.

**Other information.** In addition to the basic financial statements and accompanying notes, this report also presents as required supplementary information the budgetary comparison schedules for Clay County's General Fund and major special revenue funds. Required supplementary information is presented immediately following the notes to the financial statements. After that, the combining statements referred to earlier in connection with nonmajor governmental funds and fiduciary funds are presented.

#### **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of Clay County, assets exceeded liabilities by \$116,367,982 at the close of the most recent fiscal year, which is an increase of \$3,800,969.

Net investment in capital assets of \$89,655,724 (land, buildings, machinery and equipment, infrastructure, improvements other than buildings, and construction in progress, less any related debt used to acquire assets that is still outstanding) represents the largest portion of net position (77 percent). Clay County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although Clay County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate liabilities.

Clay County's combined net position for the year ended December 31, 2012, was \$116,367,982. Clay County's analysis that follows focuses on the net position (Table 1) and changes in net position (Table 2) of Clay County's governmental and business-type activities.

Clay County's total revenues for the year ended December 31, 2012, were \$61,125,949. The total cost of Clay County programs and services for the year ended December 31, 2012, was \$57,324,980. The net position for Clay County's governmental activities increased by \$2,734,449 and increased in the business-type activities by \$1,066,520.

#### **Revenues by Source - Governmental Activities**

#### **Governmental Activities**

Revenues for Clay County's governmental activities for the year ended December 31, 2012, were \$50,449,922 (Table 2). Clay County's costs for all governmental activities for the year ended December 31, 2012, were \$46,762,542 (Table 2). As shown in Clay County's Statement of Activities, the amount that Clay County taxpayers ultimately financed for these governmental activities through local property taxation was \$20,911,731, because \$3,942,226 of the costs were paid by those who directly benefited from the programs, and \$18,555,365 was paid by other governments and organizations that subsidized certain programs with grants and contributions.

Table 3 presents the cost of each of Clay County's six largest program functions, as well as each function's net cost (total cost, less revenues generated by the activities). The net cost shows the financial burden placed on Clay County's taxpayers by each of these functions.

#### **Business-Type Activities**

Revenues of Clay County's business-type activities (Table 2) for the year ended December 31, 2012, were \$10,676,027. Expenditures of Clay County's business-type activities (Table 2) for the year ended December 31, 2012, were \$10,562,438.

Governmental funds. The focus of Clay County's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing Clay County's financing requirements. In particular, unrestricted fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of 2012, Clay County's governmental funds reported combined ending fund balances of \$19,636,741, which is above last year's total of \$17,306,400. Included in this year's total fund balance is Clay County's General Fund balance of \$8,698,398.

#### GOVERNMENTAL FUND BUDGETARY HIGHLIGHTS

In Clay County's General Fund, the actual revenues exceeded the expected revenues by \$4,301,967. Total actual expenditures in Clay County's General Fund were more than the budget by \$2,964,314. These variances are mainly the result of expenditures and revenues relating to a 2011 \$7,500,000 Flood Hazard Mitigation grant used to purchase flood buyout properties.

#### CAPITAL ASSETS AND DEBT ADMINISTRATION

#### **Capital Assets**

Clay County's investment in capital assets for its governmental and business-type activities as of December 31, 2012, amounted to \$98,527,087 (net of accumulated depreciation). This investment in capital assets includes land, buildings, improvements other than buildings, machinery and equipment, infrastructure, and construction in progress. The total increase in the Clay County investment in capital assets for the current fiscal year was \$2,258,700, or two percent (see Table 4).

The major capital asset events during the current fiscal year included the completion of road construction projects, resulting in a transfer of \$2,502,063 from construction in progress to infrastructure. New landfill phase construction was completed at the end of 2012, increasing landfill by \$1,114,241.

More detailed information about Clay County's capital assets can be found in Note 3.A.3. to the Clay County financial statements.

Clay County's general obligation bonds are rated an A2, and revenue bonds are rated an A3. These ratings have been assigned by a national rating agency to Clay County's debt. The state limits the amount of debt that the counties can issue to three percent of the market value of all taxable property in Clay County. Clay County's outstanding net debt is significantly below this \$124,913,643 state-imposed limit.

Other obligations include capital leases, compensated absences, and landfill closure and postclosure costs. Clay County's notes to the financial statements provide detailed information about the County's long-term liabilities.

#### ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

- Clay County's average unemployment rate for 2012 and 2011 is 4.20 percent and 4.97 percent, respectively. The unemployment rate for the first five months of 2013 averaged 4.52 percent. This compares favorably to the state's average unemployment rate for 2012 of 5.65 percent and the national average rate of 8.07 percent. This information was taken from the Minnesota Department of Employment and Economic Development website for Clay County unemployment statistics.
- Clay County's tax levy is planned to increase 3.83 percent from 2012.
- With limited financial resources and the desire by the Clay County Board of Commissioners
  to minimize the increase in local property taxation, the prioritization and review of programs
  and services will be extremely important as future budgets are developed and efforts are
  made to control expenditures.
- Reviewing revenue sources and considering cost-effective and efficient means for the delivery of Clay County programs and services will influence the development of future budgets.

All of these factors were considered in preparing Clay County's governmental budget for the 2013 fiscal year.

On December 18, 2012, the Clay County Board of Commissioners approved the 2013 budget. The overall budget increase was 7.50 percent, for a total budget of \$62,336,905. It also included a 3.83 percent property tax levy increase of a total levy of \$24,294,546.

### NOTES TO THE FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED DECEMBER 31, 2012

#### 1. Summary of Significant Accounting Policies

The County's financial statements are prepared in accordance with generally accepted accounting principles (GAAP) as of and for the year ended December 31, 2012. The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (statements and interpretations). The more significant accounting policies established in GAAP and used by the County are discussed below.

### A. Financial Reporting Entity

Clay County was established March 8, 1862, and organized April 14, 1872; it has the powers, duties, and privileges granted counties by Minn. Stat. ch. 373. The County is governed by a five-member Board of Commissioners elected from districts within the County. The Board is organized with a chair and vice chair elected at the annual meeting in January of each year. The County Administrator, appointed by the Board, serves as the clerk of the Board of Commissioners but has no vote.

#### Joint Ventures

The County participates in several joint ventures which are described in Note 8.B. The County also participates in jointly-governed organizations and related organizations described in Notes 8.C. and 8.D., respectively.

# B. Basic Financial Statements

#### 1. Government-Wide Statements

The government-wide financial statements (the statement of net position and the statement of activities) display information about the primary government. These statements include the financial activities of the overall County government, except for fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges to external parties for support.

#### 1. Summary of Significant Accounting Policies

#### B. Basic Financial Statements

#### 1. <u>Government-Wide Statements</u> (Continued)

In the government-wide statement of net position, both the governmental and business-type activities columns: (a) are presented on a consolidated basis by column; and (b) are reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The County's net position is reported in three parts: (1) net investment in capital assets; (2) restricted net position; and (3) unrestricted net position. The County first utilizes restricted resources to finance qualifying activities.

The statement of activities demonstrates the degree to which the direct expenses of each function of the County's governmental activities and different business-type activities are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or activity. Program revenues include: (1) fees, fines, and charges paid by the recipients of goods, services, or privileges provided by a given function or activity; and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or activity. Revenues not classified as program revenues, including all taxes, are presented as general revenues.

#### 2. Fund Financial Statements

The fund financial statements provide information about the County's funds, including its fiduciary funds. Separate statements for each fund category-governmental, proprietary, and fiduciary--are presented. The emphasis of governmental and proprietary fund financial statements is on major individual governmental and enterprise funds, with each displayed as separate columns in the fund financial statements. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds.

# 1. <u>Summary of Significant Accounting Policies</u>

#### B. Basic Financial Statements

#### 2. <u>Fund Financial Statements</u> (Continued)

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Nonoperating revenues, such as subsidies and investment earnings, result from nonexchange transactions or incidental activities.

The County reports the following major governmental funds:

The <u>General Fund</u> is the County's primary operating fund. It accounts for all financial resources of the general government, except those accounted for in another fund.

The <u>Road and Bridge Special Revenue Fund</u> is used to account for revenues and expenditures of the County Highway Department, which is responsible for the construction and maintenance of roads, bridges, and other projects affecting County roadways.

The <u>Social Services Special Revenue Fund</u> is used to account for economic assistance and community social services programs.

The <u>Ditch Debt Service Fund</u> is used to account for the accumulation of resources and the payment of principal and interest of ditch bond issues.

The County reports the following major enterprise funds:

The <u>Family Service Center Fund</u> is used to account for the financing of the Family Service Center, which provides rental space to other departments and agencies.

The <u>Juvenile Center Fund</u> is used to account for the financial transactions of the Juvenile Center, which provides housing for juveniles and rental space to other departments and agencies.

# 1. Summary of Significant Accounting Policies

#### B. Basic Financial Statements

#### 2. <u>Fund Financial Statements</u> (Continued)

The <u>Public Health Fund</u> is used to account for providing nursing service care to the elderly and other residents of the County. All activities necessary to provide such services are accounted for in this fund. Financing is provided by a health service grant and user service charges.

The <u>Solid Waste Management Fund</u> is used to account for the operation, maintenance, and development of the County solid waste landfill.

Additionally, the County reports the following fund types:

The <u>Internal Service Fund</u> is used to account for the financing of equipment provided by one department to other departments of the County on a cost-reimbursement basis.

<u>Debt Service funds</u> account for resources accumulated and payments made for principal and interest on long-term debt of governmental funds.

The <u>County Projects Capital Projects Fund</u> is used to account for financial resources to be used for improvement of capital facilities.

Agency funds are custodial in nature and do not present results of operations or have a measurement focus. These funds account for assets that the County holds for others in an agent capacity.

#### C. Measurement Focus and Basis of Accounting

The government-wide, proprietary fund, and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

### 1. Summary of Significant Accounting Policies

# C. <u>Measurement Focus and Basis of Accounting</u> (Continued)

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Clay County considers all revenues as available if collected within 60 days after the end of the current period. Property and other taxes, licenses, and interest are all considered susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, compensated absences, and claims and judgments, which are recognized as expenditures to the extent that they have matured. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted resources first and then unrestricted resources as needed.

### D. Assets, Liabilities, and Net Position or Equity

#### 1. Cash and Cash Equivalents

The County has defined cash and cash equivalents to include cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. Additionally, each fund's equity in the County's investment pool is treated as a cash equivalent because the funds can deposit or effectively withdraw cash at any time without prior notice or penalty.

#### 2. <u>Deposits and Investments</u>

The cash balances of substantially all funds are pooled and invested by the County Auditor/Treasurer for the purpose of increasing earnings through investment activities. Pooled and fund investments are reported at their fair value at December 31, 2012, based on market prices. Pursuant to Minn. Stat. § 385.07, investment earnings on cash and pooled investments are credited to the General Fund. Other funds received investment earnings based on other state statutes, grant agreements, contracts, and bond covenants. Pooled investment earnings for 2012 were \$120,756.

### 1. Summary of Significant Accounting Policies

#### D. Assets, Liabilities, and Net Position or Equity

#### 2. <u>Deposits and Investments</u> (Continued)

Clay County invests in an external investment pool, the Minnesota Association of Governments Investing for Counties (MAGIC) Fund, which is created under a joint powers agreement pursuant to Minn. Stat. § 471.59. The MAGIC Fund is not registered with the Securities and Exchange Commission (SEC), but does operate in a manner consistent with Rule 2a-7 prescribed by the SEC pursuant to the Investment Company Act of 1940 (17 C.F.R. § 270.2a-7). The investment in the pool is measured at the net asset value per share provided by the pool.

### 3. Receivables and Payables

Activity between funds representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as either "due to/from other funds" (the current portion of interfund loans) or "advances to/from other funds" (the noncurrent portion of interfund loans).

All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, are offset by a nonspendable fund balance account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

No allowance has been made for uncollectible receivables.

Property taxes are levied as of January 1 on property values assessed as of the same date. The tax levy notice is mailed in March with the first half payment due May 15 and the second half payment due October 15. Unpaid taxes at December 31 become liens on the respective property and are classified in the financial statements as delinquent taxes receivable.

### 1. Summary of Significant Accounting Policies

#### D. Assets, Liabilities, and Net Position or Equity (Continued)

#### 4. <u>Inventories and Prepaid Items</u>

All inventories are valued at cost using the weighted average method. Inventories in governmental funds are recorded as expenditures when purchased rather than when consumed. Inventories at the government-wide level are recorded as expenses when consumed.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

#### 5. Restricted Assets

Certain funds of the County are classified as restricted assets on the statement of net position because the restriction is either imposed by law through constitutional provisions or enabling legislation or imposed externally by creditors, grantors, contributors, or laws or regulations of other governments. Therefore, applicable laws and regulations limit their use.

#### 6. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation. Computer software has a threshold of \$50,000 and is included in the category of Machinery and Equipment.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

### 1. Summary of Significant Accounting Policies

#### D. Assets, Liabilities, and Net Position or Equity

### 6. <u>Capital Assets</u> (Continued)

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. During the current period, the County did not have any capitalized interest.

Property, plant, and equipment of the primary government are depreciated using the straight-line method over the following estimated useful lives:

| Assets                             | Years   |
|------------------------------------|---------|
|                                    |         |
| Buildings                          | 15 - 75 |
| Land improvements                  | 5 - 30  |
| Public domain infrastructure       | 20 - 50 |
| Furniture, equipment, and vehicles | 3 - 15  |

The County landfill is depreciated based on capacity.

#### 7. Compensated Absences

The liability for compensated absences reported in financial statements consists of unpaid, accumulated annual and sick leave balances. The liability has been calculated using the vesting method, in which leave amounts for both employees who currently are eligible to receive termination payments and other employees who are expected to become eligible in the future to receive such payments upon termination are included. Compensated absences are accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

#### 8. Deferred Revenue

All County funds and the government-wide financial statements defer revenue for resources that have been received, but not yet earned. Governmental funds also report deferred revenue in connection with receivables for revenues not considered to be available to liquidate liabilities of the current period.

### 1. <u>Summary of Significant Accounting Policies</u>

#### D. Assets, Liabilities, and Net Position or Equity (Continued)

#### 9. <u>Long-Term Obligations</u>

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources, while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

#### 10. Classification of Net Position

Net position in the government-wide financial statements is classified in the following categories:

<u>Net investments in capital assets</u> - the net position representing capital assets, net of accumulated depreciation, and reduced by outstanding debt attributed to the acquisition, construction, or improvement of the assets.

<u>Restricted net position</u> - the net position for which external restrictions have been imposed by creditors, grantors, contributors, or laws or regulations of other governments and restrictions imposed by law through constitutional provisions or enabling legislation.

<u>Unrestricted net position</u> - the net position that does not meet the definition of restricted or net investments in capital assets.

### 1. <u>Summary of Significant Accounting Policies</u>

### D. Assets, Liabilities, and Net Position or Equity (Continued)

#### 11. Classification of Fund Balances

Fund balance is divided into five classifications based primarily on the extent to which the County is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

<u>Nonspendable</u> - amounts that cannot be spent because they are not in spendable form, or are legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash.

<u>Restricted</u> - amounts for which constraints have been placed on the use of resources either externally imposed by creditors (such as through debt covenants), grantors, contributors, or by laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation.

<u>Committed</u> - amounts that can be used only for the specific purposes imposed by formal action (ordinance or resolution) of the County Board. Those committed amounts cannot be used for any other purpose unless the Board removes or changes the specified use by taking the same type of action (ordinance or resolution) it employed to previously commit those amounts.

<u>Assigned</u> - amounts the County intends to use for specific purposes that do not meet the criteria to be classified as restricted or committed. In governmental funds other than the General Fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the General Fund, assigned amounts represent intended uses established by the County Board or the County Auditor-Treasurer, who has been delegated that authority by Board resolution.

<u>Unassigned</u> - the residual classification for the General Fund, it includes all spendable amounts not contained in the other fund balance classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted or committed.

### 1. Summary of Significant Accounting Policies

#### D. Assets, Liabilities, and Net Position or Equity

#### 11. <u>Classification of Fund Balances</u> (Continued)

The County applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

#### 12. Minimum Fund Balance

Clay County has adopted a minimum fund balance policy to address cash flow or working capital needs for the General Fund, which is heavily reliant on property tax revenues to fund current operations. However, current property tax revenues are not available for distribution until June. Therefore, the County Board has determined the County needs to maintain a minimum unrestricted fund balance in the General Fund and has set the year-end minimum fund balance amount for the General Fund equal to 16 percent of the total General Fund annual expenditures.

#### 13. <u>Use of Estimates</u>

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

### 2. <u>Stewardship, Compliance, and Accountability</u>

#### A. Deficit Fund Equity

The Road and Bridge Special Revenue Fund had a deficit fund balance of \$551,560 as of December 31, 2012. The fund balance deficit will be eliminated through future allotments.

### a. Deposits

The County is authorized by Minn. Stat. §§ 118A.02 and 118A.04 to designate a depository for public funds and to invest in certificates of deposit. The County is required by Minn. Stat. § 118A.03 to protect deposits with insurance, surety bond, or collateral. The market value of collateral pledged shall be at least ten percent more than the amount on deposit at the close of the financial institution's banking day, not covered by insurance or bonds.

Authorized collateral includes treasury bills, notes and bonds; issues of U.S. government agencies; general obligations rated "A" or better and revenue obligations rated "AA" or better; irrevocable standby letters of credit issued by the Federal Home Loan Bank; and certificates of deposit. Minnesota statutes require that securities pledged as collateral be held in safekeeping in a restricted account at the Federal Reserve Bank or in an account at a trust department of a commercial bank or other financial institution that is not owned or controlled by the financial institution furnishing the collateral.

#### Custodial Credit Risk

Custodial credit risk is the risk that in the event of a financial institution failure, the County's deposits may not be returned to it. The County does not have a deposit policy for custodial credit risk. As of December 31, 2012, the County's deposits were not exposed to custodial credit risk.

#### b. Investments

The County may invest in the following types of investments as authorized by Minn. Stat. §§ 118A.04 and 118A.05:

- (1) securities which are direct obligations or are guaranteed or insured issues of the United States, its agencies, its instrumentalities, or organizations created by an act of Congress, except mortgage-backed securities defined as "high risk" by Minn. Stat. § 118A.04, subd. 6;
- (2) mutual funds through shares of registered investment companies provided the mutual fund receives certain ratings depending on its investments;

- (3) general obligations of the State of Minnesota and its municipalities, and in certain state agency and local obligations of Minnesota and other states provided such obligations have certain specified bond ratings by a national bond rating service;
- (4) bankers' acceptances of United States banks;
- (5) commercial paper issued by United States corporations or their Canadian subsidiaries that is rated in the highest quality category by two nationally recognized rating agencies and matures in 270 days or less; and
- (6) with certain restrictions, in repurchase agreements, securities lending agreements, joint powers investment trusts, and guaranteed investment contracts.

#### Interest Rate Risk

Interest rate risk is the risk that changes in the market interest rates will adversely affect the fair value of an investment. The County minimizes its exposure to interest rate risk by investing in both short-term and long-term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations.

#### Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. It is the County's policy to invest only in securities that meet the ratings requirement set by state statute.

#### Custodial Credit Risk

The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. The County has a policy to minimize investment custodial credit risk. At year-end, \$7,335,273 of the County's investments in Federal Home Loan Bank, Federal Home Loan Mortgage, and negotiable certificates were subject to custodial credit risk.

#### Concentration of Credit Risk

The concentration of credit risk is the risk of loss that may be caused by the County's investment in a single issuer. It is the County's policy that U.S. Treasury securities, U.S. agency securities, and obligations backed by U.S. Treasury and/or U.S. agency securities, may be held without limit.

The following table presents the County's deposit and investment balances at December 31, 2012, and information relating to potential investment risks:

Long-term liabilities for internal service funds are included as part of the above totals based upon their activity. For internal service funds, \$282,575 of lease purchases payable are included in the amounts for the governmental activities at year-end.

### 4. Employee Retirement Systems and Pension Plans

#### A. Defined Benefit Plan

#### Plan Description

All full-time and certain part-time employees of Clay County are covered by defined benefit pension plans administered by the Public Employees Retirement Association of Minnesota (PERA). PERA administers the General Employees Retirement Fund, the Public Employees Police and Fire Fund, and the Local Government Correctional Service Retirement Fund (the Public Employees Correctional Fund), which are cost-sharing, multiple-employer retirement plans. These plans are established and administered in accordance with Minn. Stat. chs. 353 and 356.

General Employees Retirement Fund members belong to either the Coordinated Plan or the Basic Plan. Coordinated Plan members are covered by Social Security, and Basic Plan members are not. All new members must participate in the Coordinated Plan, and benefits vest after three years of credited service (five years for those first eligible for membership after June 30, 2010).

All police officers, firefighters, and peace officers who qualify for membership by statute are covered by the Public Employees Police and Fire Fund. Members who are employed in a county correctional institution as a correctional guard or officer, a joint jailer/dispatcher, or as a supervisor of correctional guards or officers or of joint jailer/dispatchers and are directly responsible for the direct security, custody, and control of the county correctional institution and its inmates, are covered by the Public Employees Correctional Fund. For members first eligible for membership after June 30, 2010, benefits vest on a graduated schedule starting with 50 percent after five years and increasing 10 percent for each year of service until fully vested after ten years. Members eligible for membership before July 1, 2010, are fully vested after three years of service.

PERA provides retirement benefits as well as disability benefits to members and benefits to survivors upon death of eligible members. Benefits are established by state statute. Defined retirement benefits are based on a member's average yearly salary for the five highest-paid consecutive years of allowable service, age, and years of credit at termination of service.

### 4. Employee Retirement Systems and Pension Plans

#### A. Defined Benefit Plan

#### <u>Plan Description</u> (Continued)

Two methods are used to compute benefits for General Employees Retirement Fund Coordinated and Basic Plan members. The retiring member receives the higher of a step-rate benefit accrual formula (Method 1) or a level accrual formula (Method 2). Under Method 1, the annuity accrual rate for a Basic Plan member is 2.2 percent of average salary for each of the first ten years of service and 2.7 percent for each year thereafter. For a Coordinated Plan member, the annuity accrual rate is 1.2 percent of average salary for each of the first ten years and 1.7 percent for each successive year. Under Method 2, the annuity accrual rate is 2.7 percent of average salary for Basic Plan members and 1.7 percent for Coordinated Plan members for each year of service. For Public Employees Police and Fire Fund members, the annuity accrual rate is 3.0 percent of average salary for each year of service. For Public Employees Correctional Fund members, the annuity accrual rate is 1.9 percent of average salary for each year of service.

For all General Employees Retirement Fund members hired prior to July 1, 1989, whose annuity is calculated using Method 1, and for all Public Employees Police and Fire Fund and Public Employees Correctional Fund members, a full annuity is available when age plus years of service equal 90. Normal retirement age is 55 for Public Employees Police and Fire Fund members and Public Employees Correctional Fund members, and either 65 or 66 (depending on date hired) for General Employees Retirement Fund members. A reduced retirement annuity is also available to eligible members seeking early retirement.

The benefit provisions stated in the previous paragraphs of this section are current provisions and apply to active plan participants. Vested, terminated employees who are entitled to benefits but are not yet receiving them are bound by the provisions in effect at the time they last terminated public service.

PERA issues a publicly available financial report that includes financial statements and required supplementary information for the General Employees Retirement Fund, the Public Employees Police and Fire Fund, and the Public Employees Correctional Fund. That report may be obtained on the internet at www.mnpera.org; by writing to PERA at 60 Empire Drive, Suite 200, Saint Paul, Minnesota 55103-2088; or by calling 651-296-7460 or 1-800-652-9026.

### 4. Employee Retirement Systems and Pension Plans

#### A. Defined Benefit Plan (Continued)

#### **Funding Policy**

Pension benefits are funded from member and employer contributions and income from the investment of fund assets. Rates for employer and employee contributions are set by Minn. Stat. ch. 353. These statutes are established and amended by the State Legislature. The County makes annual contributions to the pension plans equal to the amount required by state statutes. General Employees Retirement Fund Basic Plan members and Coordinated Plan members are required to contribute 9.10 and 6.25 percent, respectively, of their annual covered salary. Public Employees Police and Fire Fund members are required to contribute 9.60 percent. Public Employees Correctional Fund members are required to contribute 5.83 percent of their annual covered salary.

The County is required to contribute the following percentages of annual covered payroll in 2012:

| General Employees Retirement Fund     |        |
|---------------------------------------|--------|
| Basic Plan members                    | 11.78% |
| Coordinated Plan members              | 7.25   |
| Public Employees Police and Fire Fund | 14.40  |
| Public Employees Correctional Fund    | 8.75   |

The County's contributions for the years ending December 31, 2012, 2011, and 2010, for the General Employees Retirement Fund, the Public Employees Police and Fire Fund, and the Public Employees Correctional Fund were:

|                                       | 2012 |           | 2011 |           | <br>2010      |
|---------------------------------------|------|-----------|------|-----------|---------------|
| General Employees Retirement Fund     | \$   | 1,039,060 | \$   | 1,029,086 | \$<br>993,720 |
| Public Employees Police and Fire Fund |      | 306,272   |      | 302,648   | 299,919       |
| Public Employees Correctional Fund    |      | 156,802   |      | 156,996   | 150,607       |

These contribution amounts are equal to the contractually required contributions for each year as set by state statute.

### 4. Employee Retirement Systems and Pension Plans (Continued)

#### B. Defined Contribution Plan

Five County Commissioners of Clay County are covered by the Public Employees Defined Contribution Plan, a multiple-employer, deferred compensation plan administered by PERA. The plan is established and administered in accordance with Minn. Stat. ch. 353D, which may be amended by the State Legislature. The plan is a tax qualified plan under Section 401(a) of the Internal Revenue Code, and all contributions by or on behalf of employees are tax deferred until time of withdrawal.

Plan benefits depend solely on amounts contributed to the plan plus investment earnings, less administrative expenses. For those qualified personnel who elect to participate, Minn. Stat. § 353D.03 specifies plan provisions, including the employee and employer contribution rates. An eligible elected official who decides to participate contributes 5.00 percent of salary, which is matched by the employer. Employees may elect to make member contributions in an amount not to exceed the employer share. Employee and employer contributions are combined and used to purchase shares in one or more of the seven accounts of the Minnesota Supplemental Investment Fund. For administering the plan, PERA receives 2.00 percent of employer contributions and 0.25 percent of the assets in each member account annually.

Total contributions by dollar amount and percentage of covered payroll made by the County during the year ended December 31, 2012, were:

| Contribution amount           | En | nployee | En | Employer |  |  |
|-------------------------------|----|---------|----|----------|--|--|
|                               | \$ | 8,510   | \$ | 8,510    |  |  |
| Percentage of covered payroll |    | 5%      | 5% |          |  |  |

Required contribution rates were 5.00 percent.

### 4. Employee Retirement Systems and Pension Plans (Continued)

#### C. Other Postemployment Benefits (OPEB)

#### Plan Description

Clay County provides a single-employer defined benefit health care plan to eligible retirees and their spouses. The plan offers medical insurance benefits. The County provides benefits for retirees as required by Minn. Stat. § 471.61, subd. 2b.

### **Funding Policy**

The contribution requirements of the plan members and the County are established and may be amended by the Clay County Board of Commissioners. The required contribution is based on projected pay-as-you-go financing requirements. Retirees and their spouses contribute to the health care plan at the same rate as County employees. This results in the retirees receiving an implicit rate subsidy. There were approximately 361 participants in the plan, including 8 retirees.

### Annual OPEB Cost and Net OPEB Obligation

The County's annual OPEB cost (expense) is calculated based on the annual required contribution (ARC) of the employer, an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal costs each year and amortize any unfunded actuarial accrued liabilities (or funding excess) over a period not to exceed 30 years.

The following table shows the components of the County's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the County's net OPEB obligation to the plan.

| ARC Interest on net OPEB obligation Adjustment to ARC                   | \$<br>160,157<br>16,574<br>(22,689) |

#### Annual OPEB Cost and Net OPEB Obligation (Continued)

The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for the years ended December 31, 2010, 2011, and 2012, were as follows:

| Fiscal Year Ended                      | Annual<br>OPEB Cost |                    | Employer Contribution |                  | Percentage<br>Contributed | Net OPEB Obligation |                    |  |

### Funded Status and Funding Progress

As of January 1, 2012, the most recent actuarial valuation date, the plan was zero percent funded. The actuarial accrued liability for benefits was \$1,289,065, and the actuarial value of assets was zero, resulting in an unfunded actuarial accrued liability (UAAL) of \$1,289,065. The covered payroll (annual payroll of active employees covered by the plan) was \$17,503,426, and the ratio of the UAAL to the covered payroll was 7.4 percent.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the health care cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The Schedule of Funding Progress - Other Postemployment Benefits, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

### 4. Employee Retirement Systems and Pension Plans

#### C. Other Postemployment Benefits (OPEB) (Continued)

#### **Actuarial Methods and Assumptions**

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit cost between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the January 1, 2012, actuarial valuation, the projected unit credit actuarial cost method was used. The actuarial assumptions include a 4.5 percent investment rate of return (net of investment expenses), which is Clay County's implicit rate of return on the General Fund. The annual health care cost trend is 8.5 percent initially, reduced by decrements to an ultimate rate of 5.0 percent over 6 years. The UAAL is being amortized over 30 years on a closed basis. The remaining amortization period at December 31, 2012, was 25 years.

#### 5. Landfill Closure and Postclosure Care Costs

State and federal laws and regulations require the County to place a final cover on its landfill site when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for 30 years after closure. Although closure and postclosure care costs will be paid only near or after the date that the landfill stops accepting waste, the Board reports a portion of these closure and postclosure care costs as an operating expense in each period based on landfill capacity used as of each balance sheet date. The \$3,103,400 landfill closure and postclosure care liability at December 31, 2012, represents the cumulative amount reported to date based on the use of 45 percent of the estimated capacity of the landfill. The County will recognize the remaining estimated cost of closure and postclosure care of \$1,739,685 as the remaining estimated capacity is filled and the date the landfill is expected to be filled to capacity (2068) due to a change in accounting estimates. The estimated total current cost of the landfill closure and postclosure care is based on the amount that would be paid if all equipment, facilities, and services required to close, monitor, maintain, and adopt a contingency action plan at the landfill were acquired as of December 31, 2012. Actual cost may be higher due to inflation, changes in technology, or changes in state or federal laws and regulations affecting landfills.

### 5. Landfill Closure and Postclosure Care Costs (Continued)

The County is required by state and federal laws and regulations to make annual contributions to a trust to finance closure and postclosure care. The County is in compliance with these requirements and, at December 31, 2012, investments of \$2,881,392 are held for these purposes. These are reported as restricted assets on the balance sheet. Clay County expects that future inflation costs will be paid from investment earnings on these annual contributions. However, if investment earnings are inadequate or additional postclosure care requirements are determined (due to changes in technology or applicable laws and regulations, for example), these costs may need to be covered by charges to future landfill users or from future tax revenue.

### 6. Risk Management

The County is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors or omissions; injuries to employees; or natural disasters for which the County carries commercial insurance. The County has entered into a joint powers agreement with other Minnesota counties to form the Minnesota Counties Intergovernmental Trust (MCIT). The County is a member of both the MCIT Workers' Compensation and Property and Casualty Divisions. The County self-insures for employee health and dental coverage. For other risk, the County carries commercial insurance. There were no significant reductions in insurance from the prior year. The amount of settlements did not exceed insurance coverage for the past three fiscal years.

The Workers' Compensation Division of MCIT is self-sustaining based on the contributions charged, so that total contributions plus compounded earnings on these contributions will equal the amount needed to satisfy claims liabilities and other expenses. MCIT participates in the Workers' Compensation Reinsurance Association with coverage at \$460,000 per claim in 2012 and \$470,000 per claim in 2013. Should the MCIT Workers' Compensation Division liabilities exceed assets, MCIT may assess the County in a method and amount to be determined by MCIT.

The Property and Casualty Division of MCIT is self-sustaining, and the County pays an annual premium to cover current and future losses. MCIT carries reinsurance for its property lines to protect against catastrophic losses. Should the MCIT Property and Casualty Division liabilities exceed assets, MCIT may assess the County in a method and amount to be determined by MCIT.

### 7. Conduit Debt

The County has issued revenue bonds to provide financial assistance to private sector entities for the acquisition and construction of educational facilities deemed to be in the public interest. The bonds are secured by the property financed through a series of loan agreements and are payable solely from the revenue of the entity. The County is not obligated in any manner for the repayment of the bonds. Accordingly, the bonds are not reported as a liability in the accompanying financial statements. Bonds issued and outstanding as of December 31, 2012, are as follows:

| Entity                              | Series | Issued          | Outstanding |           |  |
|-------------------------------------|--------|-----------------|-------------|-----------|--|

### 8. <u>Summary of Significant Contingencies and Other Items</u>

### A. Contingent Liabilities

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of the expenditures that may be disallowed by the grantor cannot be determined at this time, although the County expects such amounts, if any, to be immaterial.

The County, in connection with the normal conduct of its affairs, is involved in various judgments, claims, and litigations; it is expected that the final settlement of these matters will not materially affect the financial statements of the County.

#### West Central Area Agency on Aging

The West Central Area Agency on Aging was established June 2, 1982, by a joint powers agreement among Becker, Clay, Douglas, Grant, Otter Tail, Pope, Stevens, Traverse, and Wilkin Counties. The agreement was established to administer all aspects of the Older Americans Act by providing programs to meet the needs of the elderly in the nine-county area. Each county may be assessed a proportional share of the 25 percent of the administrative costs incurred in carrying out this agreement. Each county's proportional share of this 25 percent of the administrative costs will be based upon the number of persons age 60 or older living within that county.

Any county may withdraw by providing notice to the chair of the Board 90 days prior to the beginning of the fiscal year. The chair shall forward a copy to each of the counties. Withdrawal shall not result in the discharging of any liability incurred or chargeable to any county before the effective date of withdrawal.

Control is vested in the West Central Board on Aging. The Board consists of one Commissioner from each of the counties. Each member of the Board is appointed by the County Commissioners of the county he or she represents. Complete financial statements for the West Central Area Agency on Aging can be obtained from its administrative office at P. O. Box 726, Fergus Falls, Minnesota 56538-0726.

#### Fargo-Moorhead Metropolitan Council of Governments

The Fargo-Moorhead Metropolitan Council of Governments was established in 1967 by a joint powers agreement between the Cities of Fargo and West Fargo, North Dakota; Moorhead and Dilworth, Minnesota; Cass County, North Dakota; and Clay County. The primary purpose of the Council is metropolitan area planning for the two-county area. The Council also serves as a coordinating agency for investigations and studies for improvement of government and services in the area.

The primary source of revenues is federal grants administered by the North Dakota and Minnesota Departments of Transportation, the Federal Transit Administration, and member support on a per capita basis. During 2012, Clay County contributed \$10,923 to the Fargo-Moorhead Metropolitan Council of Governments.

#### D. Related Organizations

#### Clay County Housing and Redevelopment Authority

The Clay County Housing and Redevelopment Authority (HRA) has its own governing board which is appointed by the Clay County Board of Commissioners. Clay County has no other financial, operational, or managerial control over this organization. The HRA issued the Law Enforcement Facility Refunding Bonds of 2002 for Clay County. The County makes lease payments in the amounts necessary to make the bond and interest payments each year. Because the debt is essentially an obligation of the County, it is shown as County debt in the County's financial statements.

#### Buffalo-Red River Watershed District

The Buffalo-Red River Watershed District was formed pursuant to Minn. Stat. § 103D.201, effective June 17, 1963, and includes land within Becker, Clay, and Wilkin Counties. The purpose of the District is to conserve the natural resources of the state by land-use planning, flood control, and other conservation projects by using sound scientific principles for the protection of the public health and welfare and the provident use of natural resources. Control of the District is vested in the Buffalo-Red River Watershed District Board of Managers, which is composed of five members having staggered terms of three years each, with three appointed by the Clay County Board, one appointed by the Becker County Board, and one appointed by the Wilkin County Board.

#### Wild Rice Watershed District

The Wild Rice Watershed District was established in 1969, pursuant to Minn. Stat. ch. 103D, and includes Becker, Clay, Clearwater, Mahnomen, Norman, and Polk Counties. The purpose of the Wild Rice Watershed District is to oversee watershed projects, conduct studies for future project planning, administration of legal drainage systems, issuance of applications and permits, public education on conservation issues, and dispute resolution.

# NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION AS OF AND FOR THE YEAR ENDED DECEMBER 31, 2012

#### 1. <u>Budgetary Information</u>

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds, except the Gravel Removal Tax Special Revenue Fund, County Projects Capital Projects Fund, Americana Estates Debt Service Fund, County Projects Debt Service Fund, and Ditch Debt Service Fund. All annual appropriations lapse at fiscal year-end.

On or before mid-June of each year, all departments and agencies submit requests for appropriations to the County Auditor so that a budget can be prepared. Before October 31, the proposed budget is presented to the County Board for review. The Board holds public hearings, and a final budget must be prepared and adopted no later than December 31.

The appropriated budget is prepared by fund, function, and department. The County's department heads may make transfers of appropriations within a department. Transfers of appropriations between departments require approval of the County Board. The legal level of budgetary control (the level at which expenditures may not legally exceed appropriations) is the fund level. During the year, the Board made no budgetary amendments.

#### 2. Stewardship, Compliance, and Accountability

#### Excess of Expenditures Over Budget

The following is a table of the individual fund which had expenditures in excess of budget for the year ended December 31, 2012.

|              | E  | xpenditures | F  | inal Budget | Excess |           |  |
|--------------|----|-------------|----|-------------|--------|-----------|--|
| General Fund | \$ | 20,368,769  | \$ | 17,404,455  | \$     | 2,964,314 |  |

#### 3. Other Postemployment Benefits

Clay County implemented Governmental Accounting Standards Board (GASB) Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions, for the fiscal year ended December 31, 2008. See Note 4.C. to the financial statements for more information.

# 3. Other Postemployment Benefits (Continued)

GASB Statement 45 requires a Schedule of Funding Progress - Other Postemployment Benefits for the three most recent valuations and accompanying notes to describe factors that significantly affect the trends in the amounts reported.

#### NONMAJOR GOVERNMENTAL FUNDS

#### SPECIAL REVENUE FUNDS

<u>County Building</u> - to account for the acquisition or repair of buildings used in County administration.

<u>Gravel Removal Tax Reserve</u> - to account for ten percent of gravel removal tax collections used for the rehabilitation of exhausted gravel pits.

#### **DEBT SERVICE FUNDS**

<u>Americana Estates</u> - to account for the financial transactions of the Americana Estates project for the City of Moorhead sewer and water hook-up. Financing is provided by issuing bonds and will be paid back through special assessments levied against the Americana Estates' residents.

<u>County Projects</u> - to account for the retirement of bonds issued for the capital projects.

<u>Courthouse Expansion</u> - to account for the retirement of bonds issued for the courthouse expansion.

<u>Joint Highway Facility</u> - to account for the retirement of bonds issued for the Joint Highway Facility.

<u>Law Enforcement Expansion</u> - to account for the retirement of bonds issued for the Law Enforcement expansion.

#### CAPITAL PROJECTS FUND

<u>County Projects Capital Projects</u> - to account for financial resources to be used for improvement of capital facilities.

#### FIDUCIARY FUNDS

#### **AGENCY FUNDS**

<u>Forfeited Tax</u> - is used to account for proceeds from the sale or rental of lands forfeited to the State of Minnesota pursuant to Minn. Stat. ch. 282. The distribution of the net proceeds, after deducting the expenses of the County for managing the tax-forfeited lands, is governed by Minn. Stat. § 282.08. Title to the tax-forfeited lands remains with the state until sold by the County.

<u>Joint Powers Collaborative</u> - to account for the collection and disbursement of funds for the local collaborative.

<u>State Revenue</u> - to account for the collection and disbursement of the state's share of fees, fines, and mortgage registry and state deed taxes collected by the County.

<u>Taxes and Penalties</u> - to account for the collection of taxes and penalties and their distribution to the various funds and governmental units.

<u>Watershed Districts</u> - to account for the collection and disbursement of funds for the maintenance of ditches.
